NATIONAL SKEET SHOOTING ASSOCIATION

2027 NSSA Women's Shooting Grant Program

The Executive Committee and staff of the NSSA consider outreach programs targeted toward women shooters to be a timely and worthwhile initiative. Skeet shooting is a great lifetime sport for all ages and genders, and currently women are under-represented. We recognize that meaningful participation and advocacy of women shooters is a critical component to our growth and long-term success as an organization.

Successful outreach programs that attract, retain, and develop women skeet shooters will enhance our association membership, benefit member clubs, and foster family, social and competitive skeet opportunities. We recognize and appreciate the opportunity for substantial growth and development in this demographic.

The goals of the NSSA Women's Shooting Grant Program are threefold: to enhance **women's awareness** and **enjoyment** of our sport; to **increase female membership** within the NSSA; and increase **female participation in NSSA registered competitions**. This grant can go towards programs including, but not limited to, women-only instructor courses, shooting clinics, and skeet shooting events. The Executive Committee will consider thoughtful, well-developed applications from any appropriate organization, program, club, or event seeking support.

Successful grant applications will demonstrate how their organization's efforts and specific programs will help achieve the three goals. Grantees will be required to **document and codify** program results in a meaningful way and **share their findings with the NSSA**. These metrics and results will play a critical role in assisting the NSSA in its ongoing outreach efforts to support women shooters.

Please fill out the 2026 NSSA Women's Shooting Grant Application and a separate proposal to include: your organization's structure, mission, objectives, program details with budget assumptions (proposed use of funds) and measurements for success and impact. The event(s) must be held at an NSSA Member Club. If you are not sure of the host club when submitting the application, please specify the State and provide the Club information once selected.

Grants will be reviewed by the NSSA Executive Committee and NSSA Assistant Director. If approved, grants will be awarded in an amount **up to $1,000**. Grants funds will be distributed by NSSA annually in the form of reimbursement upon proper submission to NSSA of receipts, documentation and cooperative marketing media (i.e., photos, videos, and an event/program result summary).

Thank you for your efforts to enhance successful outreach programs for women shooters!

NATIONAL SKEET SHOOTING ASSOCIATION

2027 NSSA Women's Shooting Grant Application

Please read and complete the information below.

Club/Organization Name: _____ Camp Date: _____
Host Club or State: _____ Club Member Number: _____
